Rt. 8, Frederick, Md. 21701
5/7/74

Dear Mr. Clemens,

Thanks for your kind letter of 5/3.

To the degree possible I try to find time to answer letters because so many people have and should have so many questions.

But the only practical way is to continue my work. I do. Were it possible for me to get books published or to print more myself, more would now be available.

The fact is that this work has been impoverishing, not profitable.

And without subsidy.

So, I can't always find time to answer all letters. And I do ask the courtesy of a stamped, self-addressed envelope.

If you have Gerold Frank's fiction, "An American Death," you may be interested in my book which gives the opposite view and fact, not fiction, Frame-Up.

I alonenow have copies. They list at $10. We ask the addition of postage and insurance, 50¢.

Sincerely,
